Be a Case Study!

8/9 Week Program

At the Skin & Makeup institute, our students are required to research & perform services to reverse persistent conditions. If you suffer from a skin disorder such as acne, hyperpigmentation, hormonal activity or aging skin, you may be eligible.

As a participant you will be required to commit to 8 weeks of treatments. You will also be asked to purchase the products necessary to benefit from the study. The program will be set up for your specific skin needs & may include treatments such as Chemical peels, a Microdermabrasion series, or Hydrating, Toning, Firming & Calming treatments.

Please speak to one of our students or instructors or give us a call for a complimentary skin analysis.
*Purchasing home care products & allowing students to take before and after photos may be required.
